DEVELOPMENT PROJECTS

Meal Planner
Description — Search for recipe ideas by meal name and save your recipe links to a built-in weekly calendar. Meal Planner also has a random cocktail button that will present you a cocktail recipe to go with your meal.
Languages used — AJAX, jQuery, JS/CSS/HTML

URL — https://rsowald.github.io/MealPlanner/

Javascript Fundamentals Quiz
Description — This is a quiz on Javascript coding fundamentals built to test a user's knowledge of JS and showcase my use of HTML DOM methods in JS.
Languages used — JS/CSS/HTML

URL — https://rsowald.github.io/JsCodingQuiz/

Weather Dashboard — *Detail*
Description — This weather dashboard is for a user who wants to check the weather for a travel destination or any city they are curious about. They can type in the city name and an API call will return current conditions and a forecast.
Languages used — AJAX, jQuery, JS/CSS/HTML

URL — https://rsowald.github.io/WeatherDashboard/
